

\$15

## SKY SPIKE

Just as the *Golden Spike* ushered in a new era of exploration when East met West, the **Sky Spike** celebrates that same pioneer spirit - Round meets Square in a truly unique design.

\$27

## QUADZILLA

Pardon the pun, but this one's a monster! **Quadzilla** soars through the sky with cloud-bursting power. Custom decals and corner fins highlight this 34-inch beast.

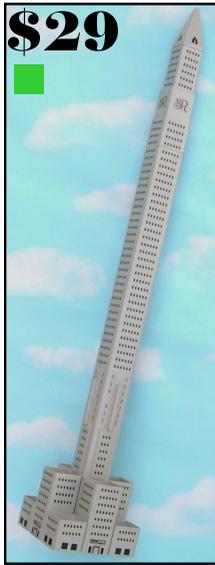

\$17

## Lune R-4

**Lune R-4** is a tribute to one of Semroc's most popular kits ever. Smart design and a deceptively simple decal combine in a spectacular sounding rocket.

Design elements copyright Semroc Astronautics Corporation. Used with permission

\$29

## SKYRISE

We've all spent time building rockets to launch but now you can launch a rocket building! **Skyrise** is 65 stories of awesome—just imagine the view from *this* penthouse!

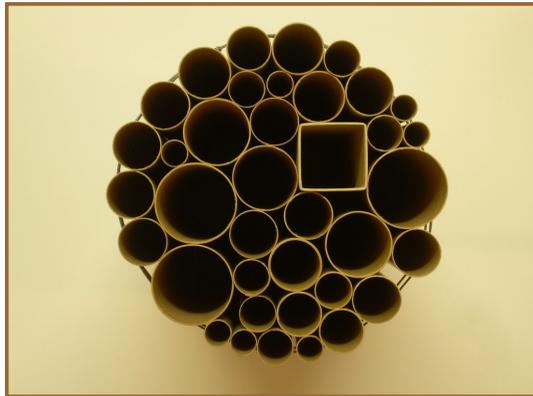

\$5

## Square in the Air

**Square in the Air** is a modified spool design that seems to defy physics. It really shouldn't fly... but wow, does she soar!

\$18

### SquareOne

Inspired by the classic Estes kits of the late 70's and early 80's, we went back to **SquareOne** to create this sleek explorer as our flagship kit.

\$17

### NIKE SMOKE<sup>2</sup>

**Nike Smoke<sup>2</sup>** -- Ask any old school modeler to name their favorite designs and this sleek sounding-missile is sure to be in everyone's Top Ten.

\$12

### Q-bee

Short but speedy, **Q-bee** will be the queen of your rocket fleet. And here's where a *square* body tube really pays off - did you ever see a *round* model rocket with off-set fins?

\$15

### Mark II Squared

More than just a tribute, the **Mark II Squared** is a direct translation of the world's first model rocket from round to square. From the distinctive fins to the crayon-sharpener nosecone, we've captured the simple essence of Carlisle's legacy in this kit.

\$16

### Mark 4

Honoring the iconic design of Orville Carlisle's Rock-A-Chute Mark II, our **Mark IV** is a sturdy voyager where style meets substance.

\$23

### N-20 DEMON

**N-20 Demon** – A secret payload tops this awesome researcher. With silver foil trim and tons of details, the devil is truly in the decals.

Design elements copyright Estes Industries. Used with permission

\$25

### C THRU

A clear improvement over traditional payload designs, **C-Thru** is a stylish interstellar traveler. Its distinctive silhouette and sharp lines will add a sophisticated edge to any hobbyist's collection.

\$27

### Vigilangle

For many of us, this two-stage beauty is a trip down memory lane. **Vigilangle** is cloned from another favorite kit. Its unique nosecone and precision fins have a recognizable profile— even at 1000 feet!

Design elements copyright Estes Industries. Used with permission

\$20

### 4SQUARE

Echoing vintage tube fin designs from Centuri, Estes and Quest, the **4Square** is a stylish cruiser with distinctive geometries.

\$19

### QUAD GOBLIN

**Quad Goblin** -- This spooky little monster was designed for speed. So fast it's scary! It's the rocket you'll need a good recovery team for.

Design elements copyright Estes Industries. Used with permission

\$29

### 2x4

No matter how long you've enjoyed the hobby, you won't be 'board' with the **Two by Four**. At just over 2 feet long, this impressive two-stager will fly high and pack a solid punch.

■ = special pricing on kits introduced at NARAM 54.
